## TESTIMONIAL

It is with great pleasure that I give my endorsement to Avar & Co. in this testimonial. I cannot praise Ash highly enough for his professional, diligent, prompt and excellent advice which he has extended to my business and to me personally during the past 8 years that I have known him.

The task of a good accountant should not be confused with that of a bookkeeper. Almost anyone can keep books but to give good advice, worth its weight in gold, you need a good accountant and Ash is the best to advise you and your business and help you towards a profitable future. I cannot recommend him highly enough.

Yours faithfully
