Avar & Company

**I have had a professional client relationship with Avar for over twelve years.**

**When I came from the United States to the London to begin my new business,Avar & Company was recommended to me by both personal and professional colleagues.**

**At the onset,the principals of Avar worked closely with me on my corporate and financial structure in relation to my own business and personal requirements.**

**This original structure has continued and developed,with only minor changes since its set-up twelve years ago.**

**Replies to any of my queries or need for advice have been always been handled in a prompt,accurate and professional manner.**

**Avar assisted me in the set up of my records and systems so that the preparation of my accounts are compatible with my tax affairs,so ensuring reasonable annual professional fees.**

**I have previously and will continue to recommend Avar & Company to others.**
