To whom it may concern:

AVAR & COMPANY

I have worked with Avar & Co.as my auditors for my corporate and personal business for approximately 12 years.

The length and breadth of my relationship with the company should indicate my overall satisfaction.

They are professional,thorough,precise but also flexible and understanding of my own needs.

No effort is spared to undertand my requirements and to advise how I can work within the necessary legal framework.In short,understanding and dependable.(they have by the way, no compunction to tell me if I am not complying with statuary obligations.)

Changes in corporate and tax laws are explained to me properly to enable me to plan for the future.

I am happy with the competance and cooperation of the Avar staff at all levels.My only problem is that nearly all Avar staff are miles ahead of me in IT capacity.I feel humble!!!

Also,for normal work,their fee structure is transparent and reasonable.
