Inflation: UK prices increase at fastest rate for almost ten years

The cost of living has surged at its fastest pace in almost 10 years, with the Consumer Prices Index (CPI) reaching 4.2% in the year to October. It is primarily due to higher fuel and energy prices but the cost of second-hand cars and eating out also increased, the Office for National Statistics (ONS) have said.

Inflation is up since Covid restrictions ended this year and the economy reopened. The Bank of England says it may have to raise interest rates in the "coming months" to tackle rising prices. October's reading is far higher than the 3.1% rise recorded in the year to September and more than double the Bank's target of 2%.

The latest report from the ONS shows the Consumer Prices Index including owner occupiers' housing costs (CPIH) rose by 3.8% in the 12 months to October 2021, up from 2.9% in the 12 months to September.

The largest upward contribution to the October 2021 CPIH 12-month inflation rate came from housing and household services (1.23 percentage points), with further large upward contributions from transport (1.08 percentage points) and restaurants and hotels (0.43 percentage points).

Rapidly rising inflation can mean consumers are more cautious about making discretionary purchases and it's a good idea to avoid sudden price rises that encourage consumers to look around for cheaper alternatives. A gradual plan for price increases is probably a more sensible option for businesses.

Inflation will also affect the prices you pay for stock and other expenses, so now is a good time to reflect on your stock levels and consider alternative sources of supply and review the profitability of your products, goods and services to ensure they are and will remain profitable.

Clearly, in these uncertain times, it is a good time to plan ahead and here are a few ideas to help with remaining resilient:

- Review your Budgets and set realistic and achievable targets for the remainder of 2021 and 2022;
- Get rid of Won't pay customers;
- Review debtors list and chase up overdue invoices (if appropriate);
- Make sure your terms of business contain explicit payment terms;
- Assign responsibility to one individual for invoicing and collections;
- Agree extended payment terms with all suppliers in advance;
- If appropriate, review banking facilities and discuss future needs;
- Put extra effort into making sure your relationships with your better customers are solid;
- Review and flow chart the main processes in your business (e.g. Sales processing, order fulfilment, shipping etc) and challenge the need for each step;
- Encourage your staff to suggest ways to streamline and simplify processes (e.g. sit down and brainstorm about efficiencies and cost reduction);
- Use 'bottom up' budgeting where everyone in the office gives input on areas over which they have control – target a 10% cost saving;
- Review your staffing needs over the next few months;
- Get your members of staff involved in a discussion of likely trading conditions and get their input on reducing costs and maintaining revenues;
- Review your list of products and services and eliminate those that are unprofitable or not core products/services;
- Establish your key performance indicators (KPI's) and measure them on a daily basis e.g.:
- Sales Leads generated
 - Orders Supplied/Fulfilled
 - Cash Balance
 - Stock Turnover
 - Debtor Days
 - Gross Profit
 - Net Profit; and

Guidance for employers on RTI reporting obligations for payments made early at Christmas

Some employers pay their employees earlier than usual over the Christmas period, for example the business may close for Christmas and New Year. If you do pay early, please report your normal payment date on your Full Payment Submission (FPS).

For example: if you pay on 17 December 2021 but your normal payment date is 31 December 2021, please report the payment date as '31 December 2021'. In this example the FPS would need to be sent on or before the 31 December 2021.

Report CJRS Furlough grants and overpayments on Corporation Tax Return CT600

The latest version of the CT600 Corporation Tax Return updated on 15 November 2021 requires companies to report CJRS furlough payments received and the amounts that the company was entitled to during the period in boxes 471 and 472. Where any overpayments have already been disclosed to HMRC that amount should be reported in box 473. If the company has overclaimed "Eat Out to Help Out" grants that amount should be reported in box 474.

Please contact a member of our team if you would like to discuss any of the issues raised.

Call: **020 7684 0606** Email: team@avar.co.uk Website: www.avar.co.uk

The total amount overclaimed should then be entered in box 526. This amount will be assessed for income tax. HMRC will write to companies with the reference number and payment details. This is not corporation tax so you must not pay this with your main corporation tax liability.

Post Office card accounts – Time is running out

Around 24,000 HM Revenue and Customs (HMRC) customers with a Post Office card account have just 1 week left to update the department with new payment details before the 30 November 2021 deadline, or risk having payments paused.

From 1 December 2021, HMRC will stop making tax credits, Child Benefit and Guardian's Allowance payments to Post Office card accounts. HMRC is urging account holders to contact them to update their bank account details to continue receiving payments without disruption.

Customers can choose to receive their benefits and credits payments to a bank, building society or credit union account. If they already have an alternative account, they can contact HMRC now to update their details.
